A Monster Calls

Patrick Ness

The monster in Conor's backyard is not the one he's been expecting—the one from the nightmare he's had every night since his mother started her treatments. This monster is ancient. And wild. And it wants something from Conor. It wants the truth.

From the final idea of award-winning author Siobhan Dowd—whose premature death from cancer prevented her from writing it herself—Patrick Ness has spun a haunting and darkly funny novel of mischief, loss and monsters both real and imagined.

Soon to be a major motion picture (and now in a movie tie-in edition that includes a book group discussion guide), *A Monster Calls* is a poignant tribute from “an insanely beautiful writer” (John Green).
